whether they use the app or not

Problem Statement

High Uninstall Rate

77.4%

Problem Prioritization

1

Booking Process Consideration Phase

I: 10 C: 8 E: 7 | Score: 560

2

Booking Process Activation Phase

I: 10 C: 8 E: 5 | Score: 400

3

Online Chat Problem

I: 10 C: 8 E: 5 | Score: 400

Objective

Increase the number of active users of the GoDentist mobile app by improving the usability of the main features

Key Results

1. Increase the number of active users by 50% at the end of Q4
2. Achieves a customer satisfaction rate of 95% based on user surveys.
3. Achieves a 4.9/5 rate on the Google Play Store with reviews from at least 35% of active users by the end of Q4.

Epic & User Stories

Epic 1: Booking Process Consideration Phase

Epic 2: Booking Process Activation Phase

Epic 3: Online Chat Problem

Epic 1

Change the copy of nearest clinic

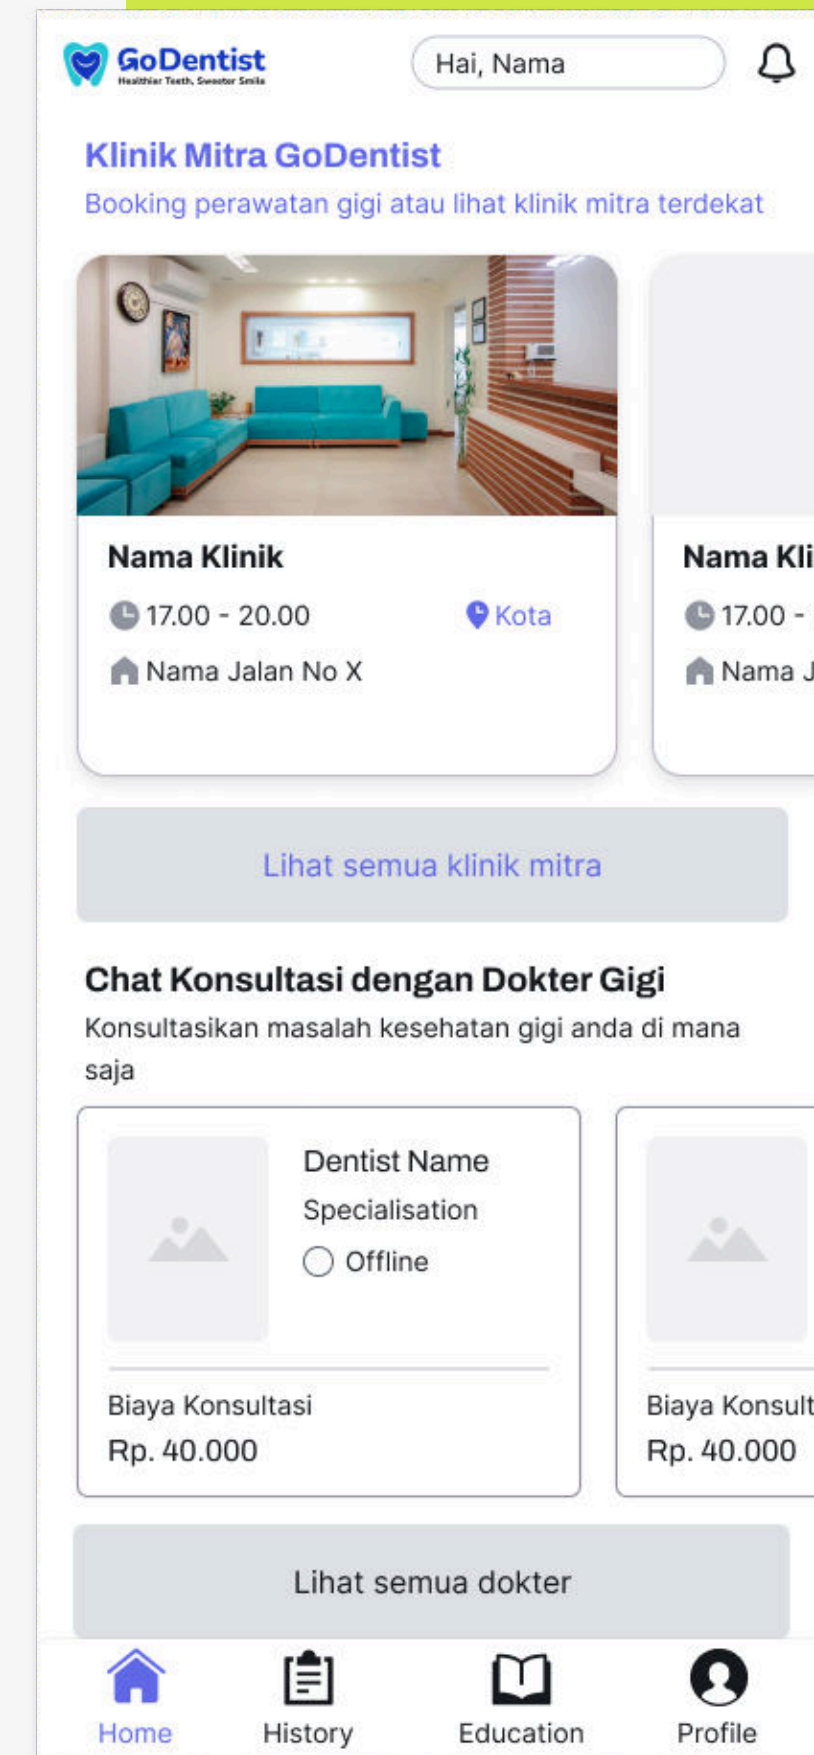

I: 10 C: 10 E: 10 | Score: 1000

As a user, I want clear and accurate labeling of every feature, so that I will not be misled about the features.

Required to display city name

I: 10 C: 10 E: 10 | Score: 1000

As a patient, I want to easily know the city where the clinic is located, so that I will not wrongly book the clinic that is far from my location.

Epic 1

Redesign the Booking *Klinik* page

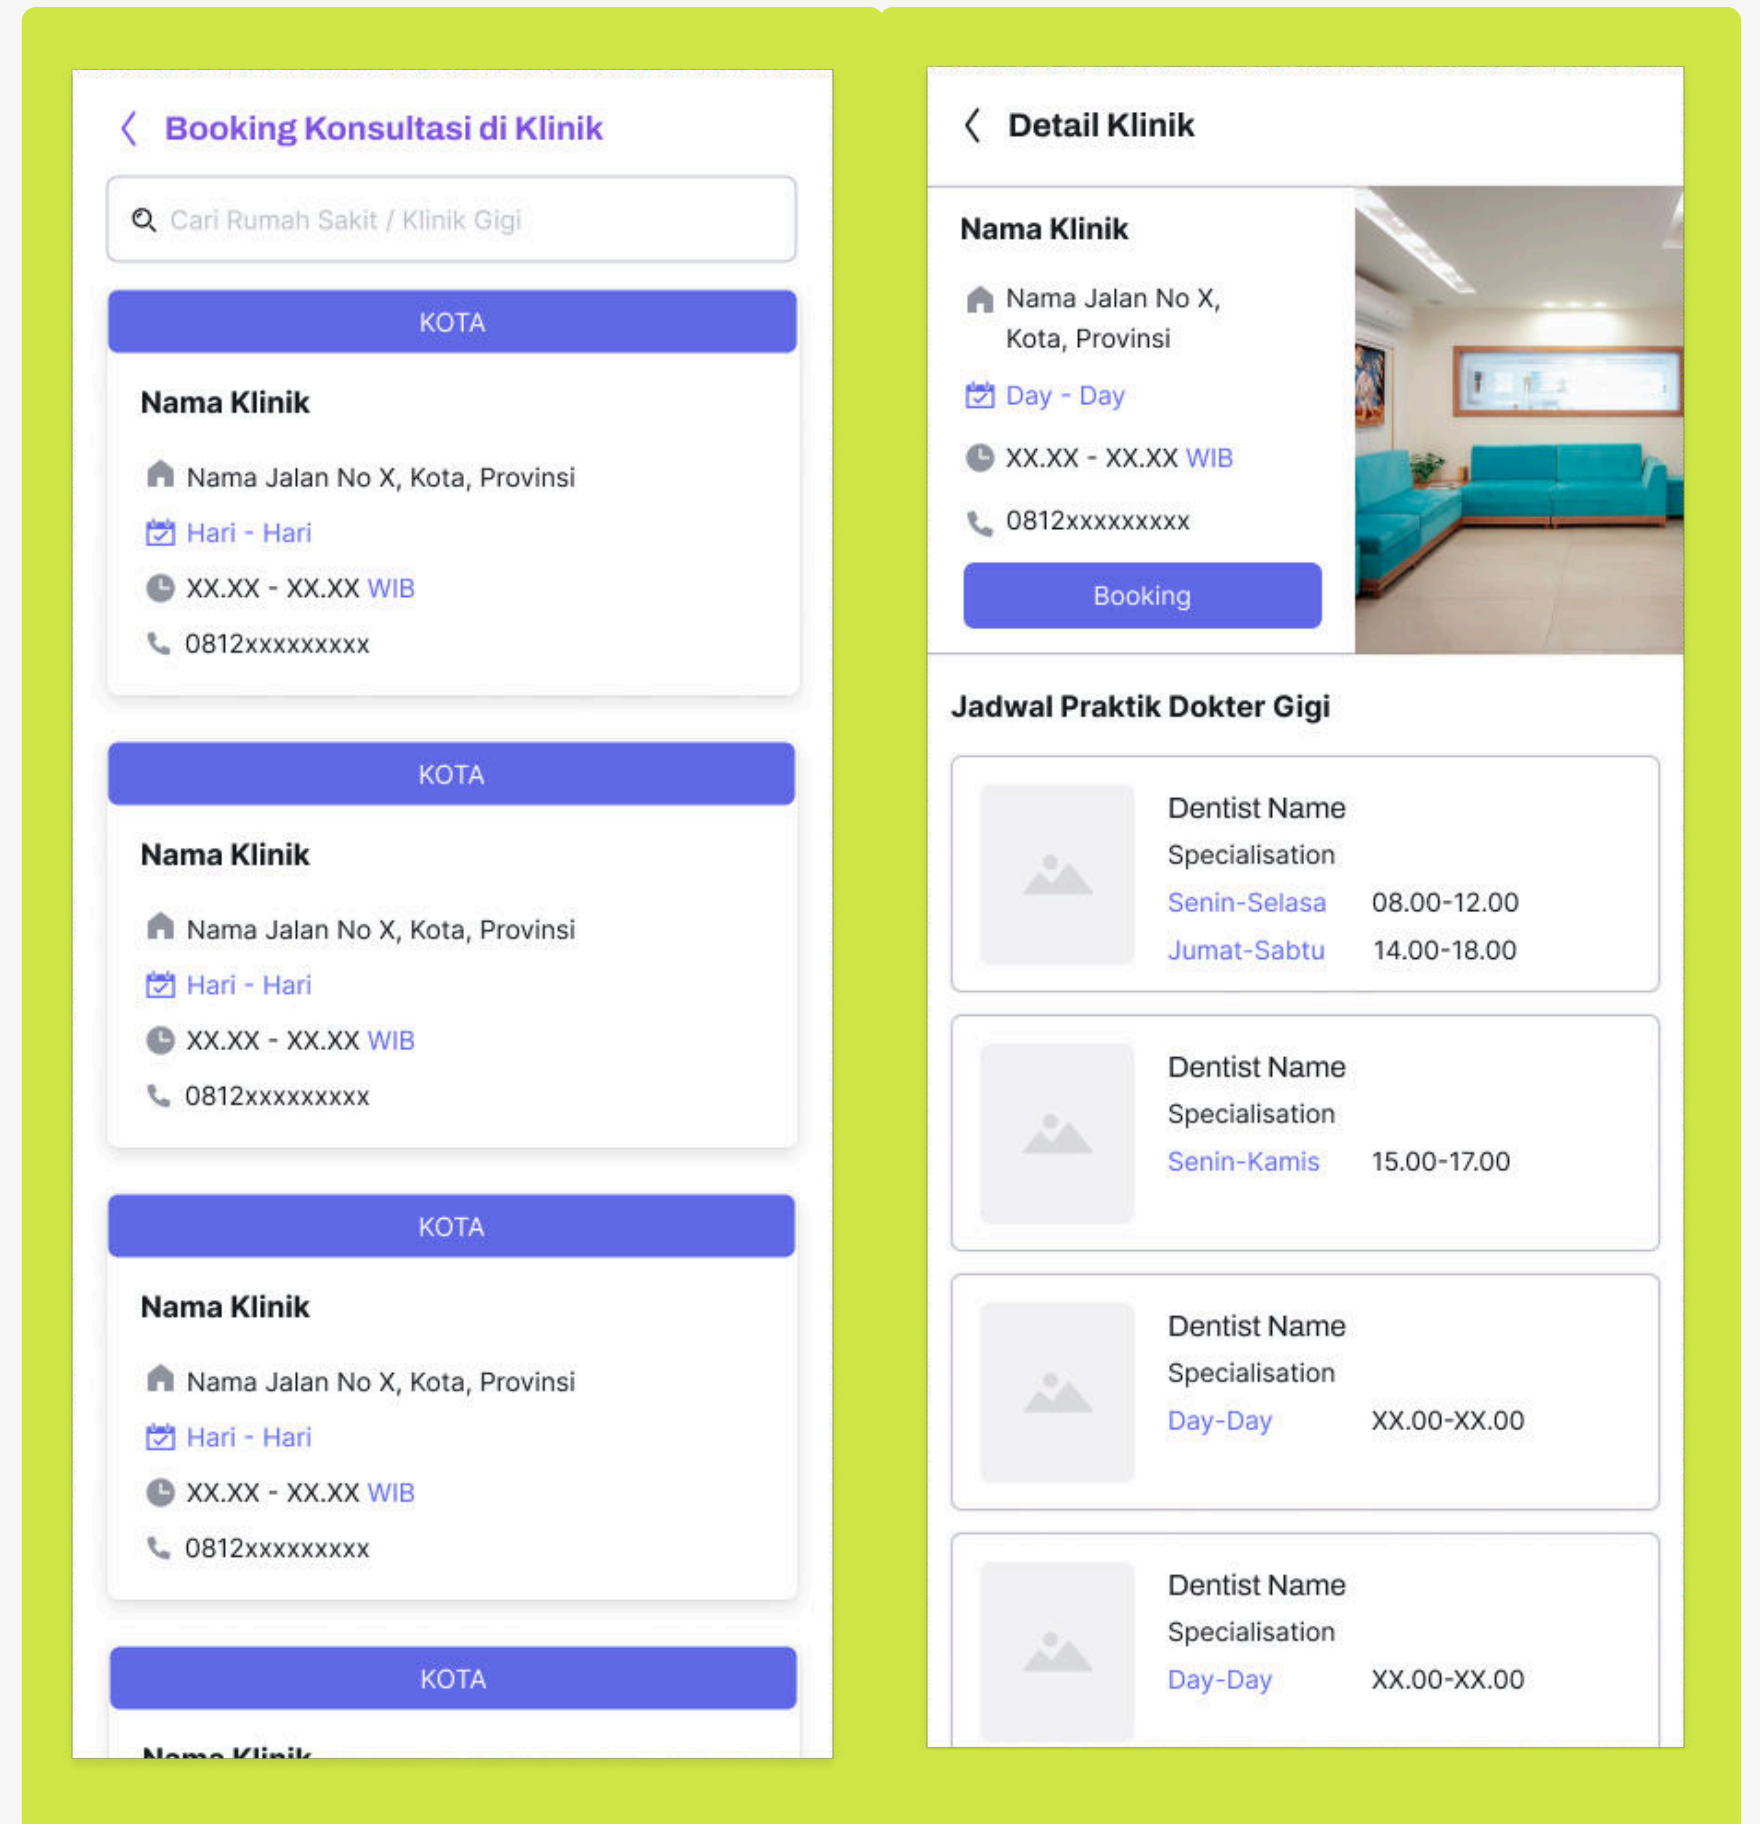

I: 10 C: 8 E: 5 | Score: 400

As a patient, I want to know the general information of the clinics, so that I can choose the preferred clinic and I will be sure about booking an appointment at the clinic.

Redesign the *Detail Klinik* page

I: 10 C: 10 E: 10 | Score: 1000

As a patient, I want to see the general information and the dentist schedule on one page so that I don't have to click more than once to get the information.

Epic 2

Remove the services field and replace with symptoms field

I: 10 C: 10 E: 7 | Score: 700

As a patient, I want to tell the dentist about my symptoms, so that I will receive the right procedures.

Add the identity info field

I: 10 C: 8 E: 5 | Score: 400

As a patient, I want an identifier for me to differentiate me from another patient, so that my medical records will not mistakenly be switched with other patients.

Epic 2

Implement slot-based booking system

I: 10 C: 10 E: 3 | Score: 300

As a patient, I want a **slot-based booking system**, so that I can first select my preferred date and then choose a dentist based on their available time slot, eliminating confusion during the booking process.

Booking

Epic 3

Move the status button

I: 8 C: 8 E: 7 | Score: 448

As a dentist, I want the status button to be visible so that I will not forget to change the status.

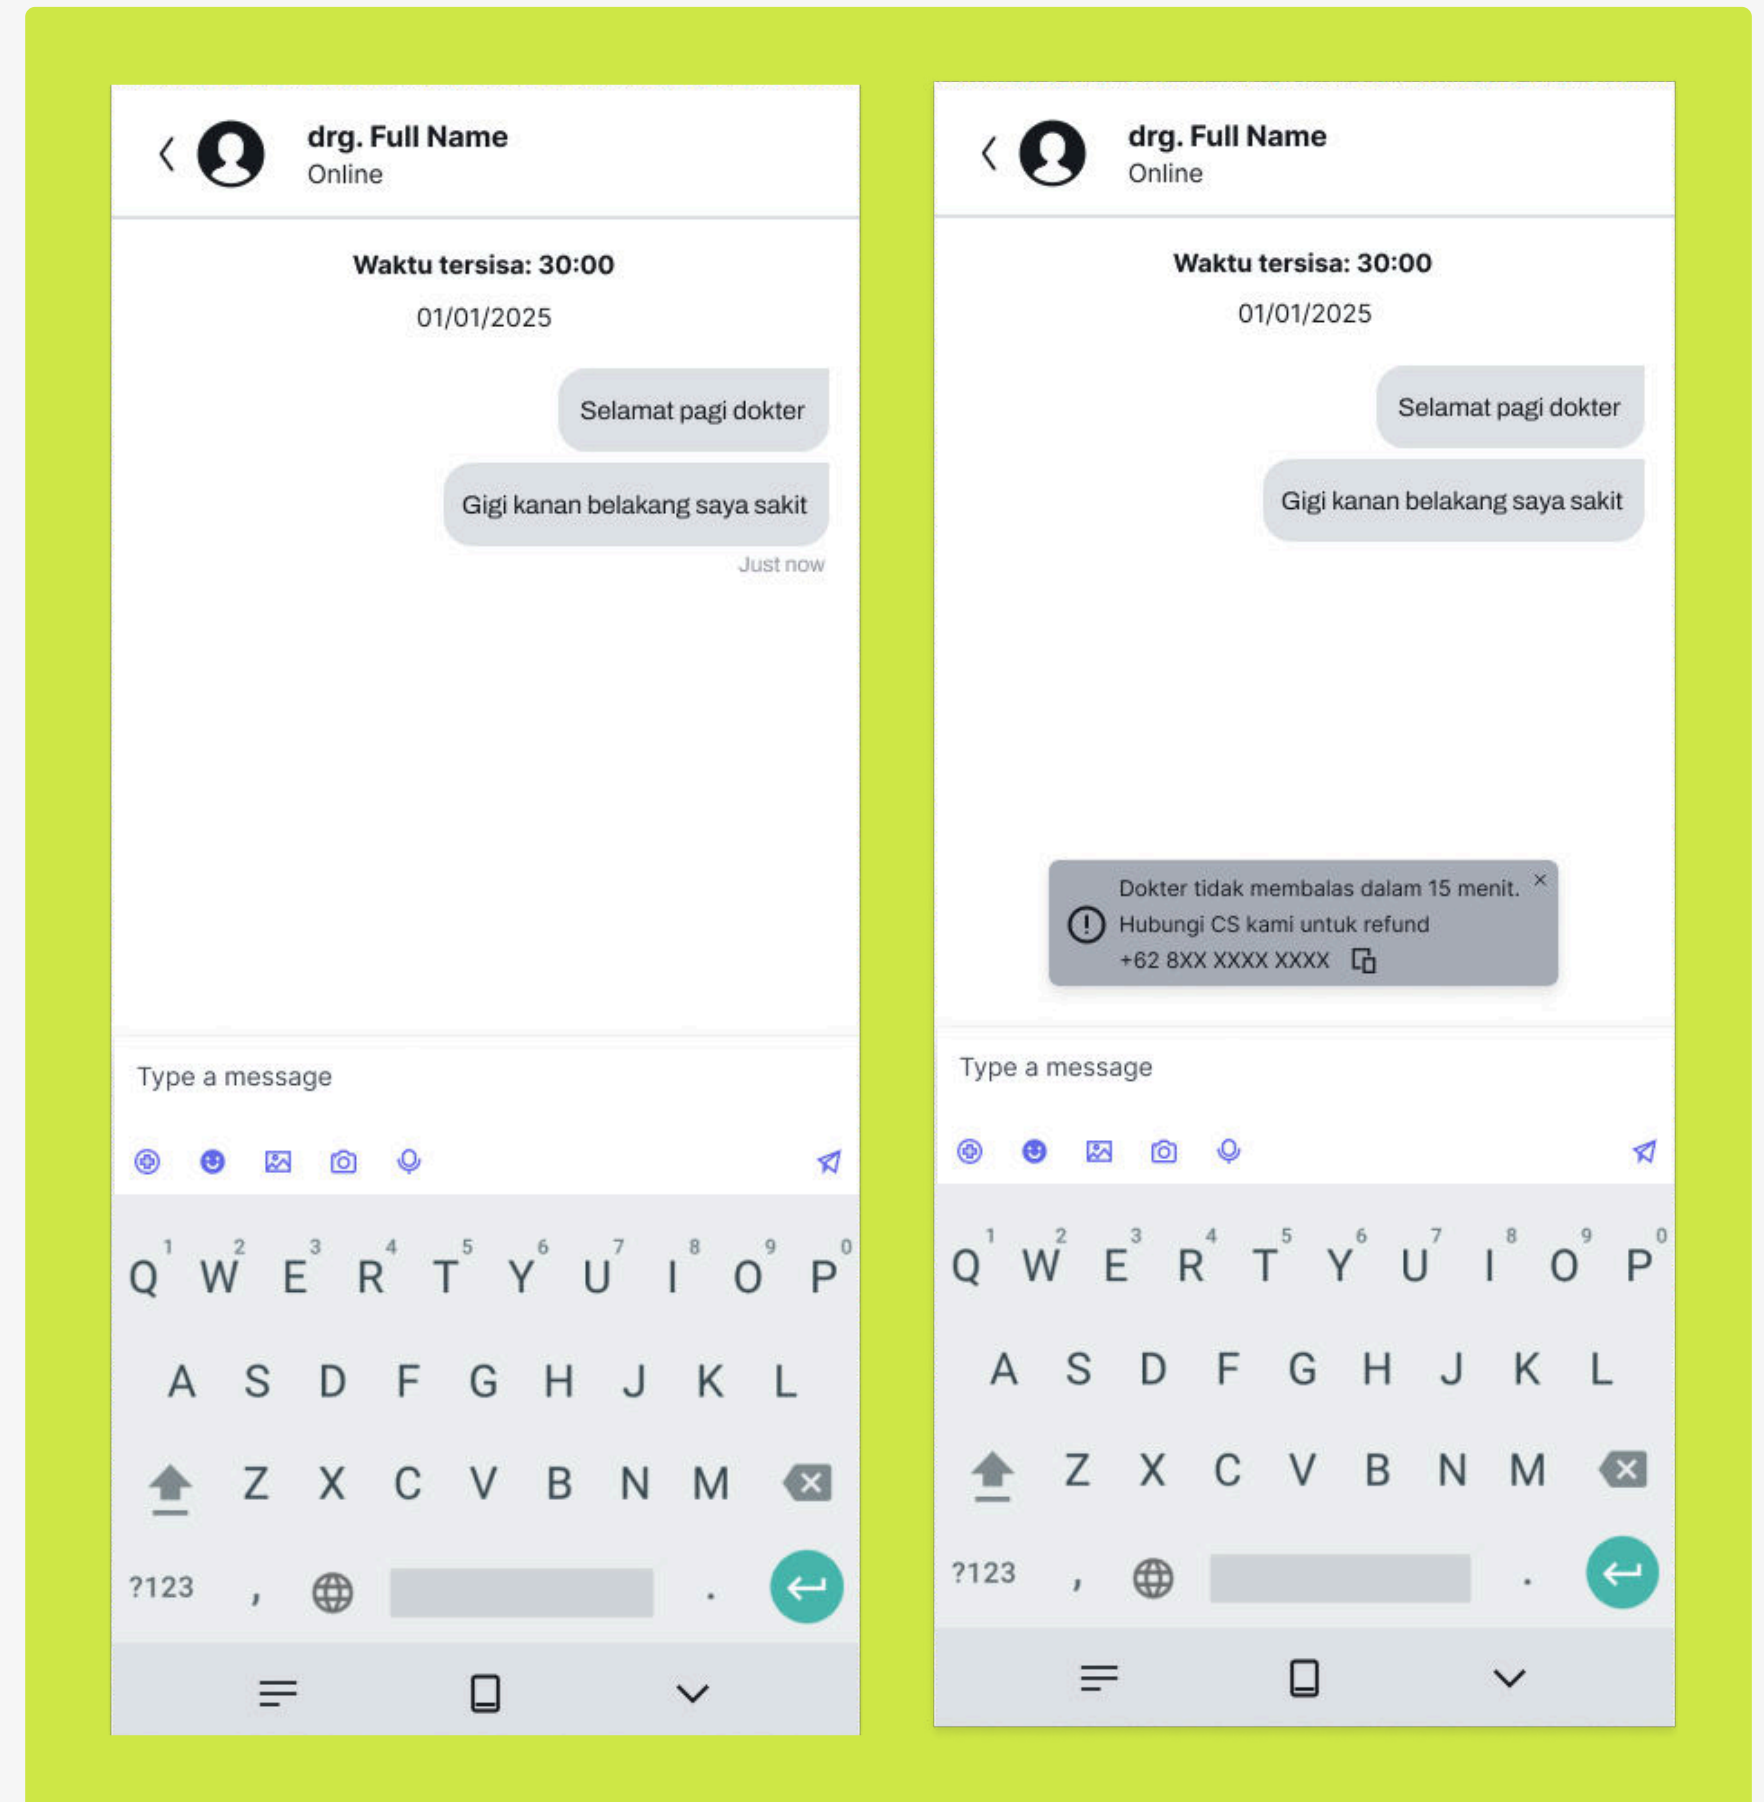

Epic 3

Change the start running time

I: 10 C: 8 E: 5 | Score: 400

As a patient, I want the 30 minutes to consult with a dentist to start when the dentist replies to my chat for the first time so that I don't spend my money only waiting for the dentist to respond.

Epic 3

Add a Chat History

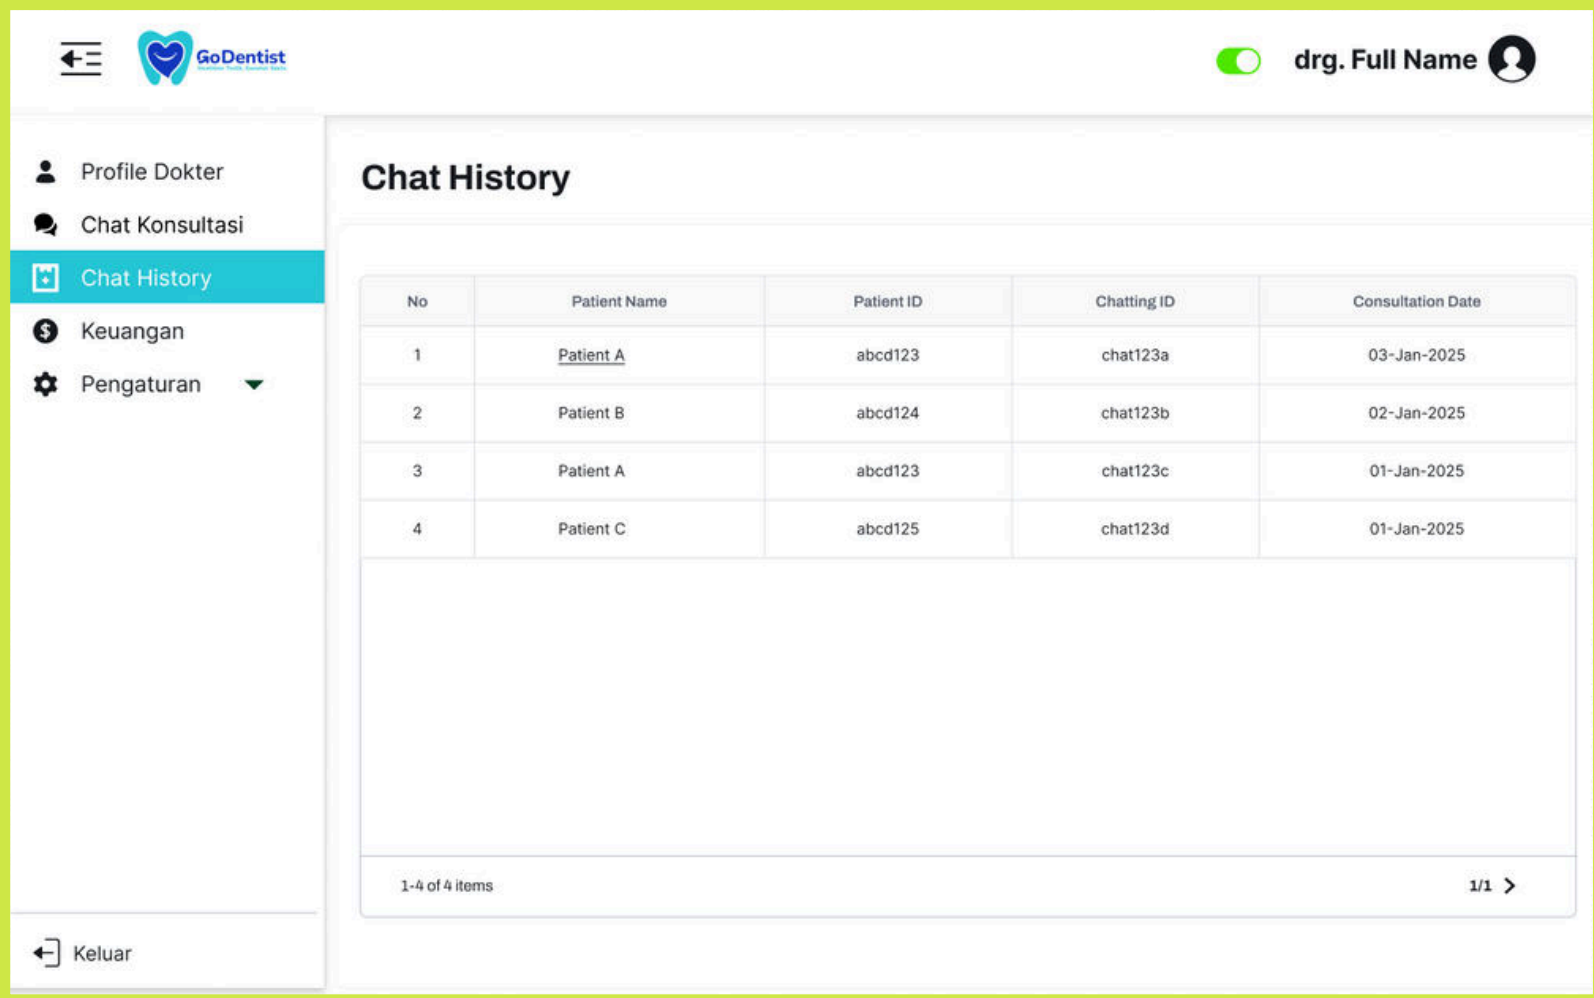

I: 8 C: 8 E: 5 | Score: 320

As a dentist, I want to have a Chat History, so that I can easily access past chats with patients if necessary.

Implement auto-offline status

I: 10 C: 6 E: 5 | Score: 300

As a dentist, I want the status to automatically go offline when I close the tab or window, so that I will not receive any chat from the patient when I'm away.

Epic 3

Add a placeholder

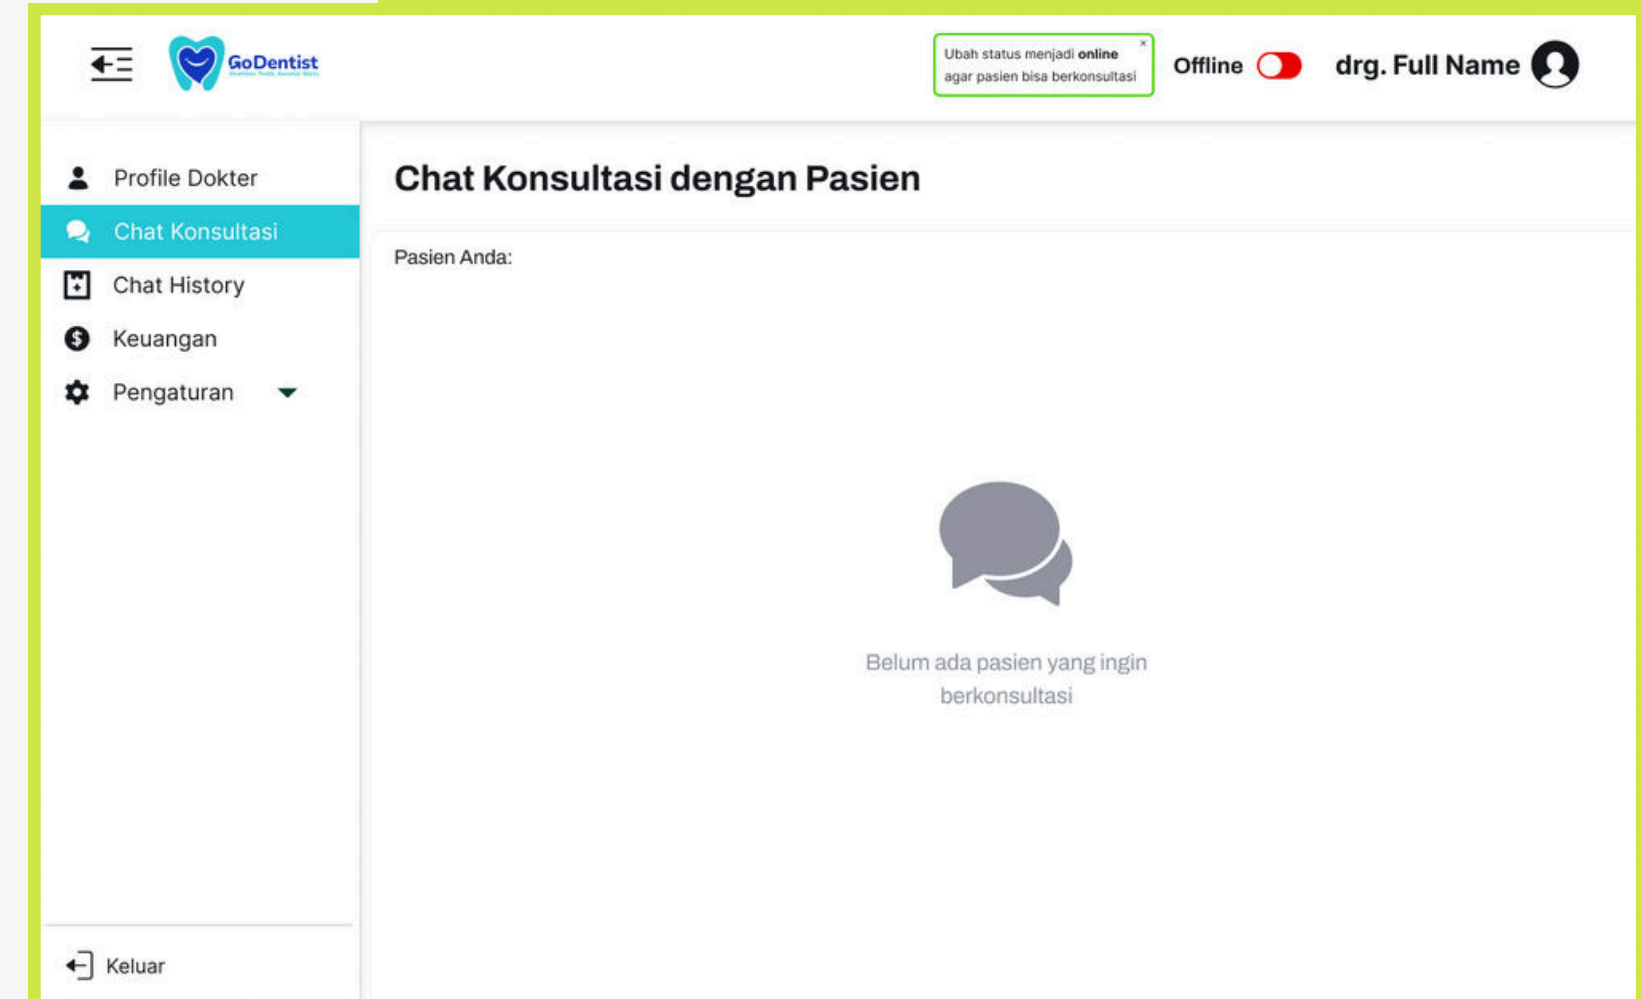

I: 6 C: 8 E: 6 | Score: 288

As a dentist, I want a placeholder on the Chat *Konsultasi* page when there is no chat from a patient, so that I can know the page is working and understand the page's purpose and context even when it is empty.

Remove irrelevant features

I: 10 C: 8 E: 3 | Score: 240

As a dentist, I want to remove irrelevant features on GoClinic for Dentist, so that I can focus on the features that are relevant to my work.

Hypothesis

Epic 1

→ Patients will be more comprehend

→ Streamline their decision-making process

Epic 2

→ Reduce booking errors

→ Decrease form completion time

Epic 3

→ Increase patient satisfaction

→ Reduce complaints

→ Drive more chat consultations for dentists.

Success Metrics

Epic 1

Achieves **60% clinic-to-booking conversion rate** within 6 months

Epic 2

Achieves **80% of booking completion rate** within 6 months

Achieve an **average of less than 3 minutes for booking completion** within 6 months

Epic 3

Reduce refunds due to online consultation issues **by 80%** within 6 months

Achieve an **average patient satisfaction rating of 4.8/5** for online chat consultation feature within 6 months
